Dear Mr. Tonc:

Enclosed is a copy of the EPA Region IX letter concurring in the corrective actions proposed for the NM-B-1 lease tract near Grants, NM.

Please initiate the appropriate action to ensure a construction start this month. The change in action level established by the EPA should not have a significant impact as most of the lease tract does not exceed 100 uR/hr based on the data submitted and our on-site observations.

Once the construction package and plan have been assembled, please brief me on the actions to be taken. If you have any questions, please call me at 6003.

Sincerely,

Robert E. Ivey
Contracting Officer
